

AT PUNCH

Punch Studios is a dynamic and progressive music company offering a range of inspiring and fun services for the development of youth music in East Anglia

Tailored to meet your needs...

Professional Recording Facility

Punch Studios is a facility available for hire for arts weeks, school trips, music prize/competition winners and more. We also provide work-experience placements to Year 10 pupils as well as team-building sessions for staff. Based close to Ipswich Town centre, the studio offers 24-track recording onto a ProTools system using the latest leading software plug-ins as well as having a host of vintage analogue outboard equipment. Punch Studios has a great sounding live room, finished to the highest standard with solid oak flooring and an acoustically treated performance area.

GCSE & A-Level Recording

Ideal for schools without adequate equipment or expertise to record GCSE/A-level compositions and recitals to a high standard. We provide a multi-tracked recording service for better instrument separation, definition and with a well balanced final mix copied onto CD.

Arts Week Courses

These bespoke sessions are run from the studio premises in conjunction with school activity week programmes. These can be from one to five days, focusing on composition, recording and performance.

Rehearsal Rooms

Rehearsal space is available at the studio, providing young people with an opportunity to practice during weekends and school holidays in a clean, well-equipped facility.

Teaching Rooms

If tuition is not provided in schools we offer a dynamic teaching team from our premises if young people wish to further their musical development outside of school hours.
